

2016 - 2017 Green Cleaning Program Notice

In accordance with Ct Public Act 09-81 and Statutes 10-220 and 10-231g, each year the school district is required to give the Staff and Students, Parents and Guardians if requested a written statement about its Green Cleaning Policy implementation.

This new law requires school districts to implement a green cleaning program to clean and maintain their schools. A Green Cleaning Program means the procurement and use of environmentally preferable cleaning products certified by 'Green Seal' or 'Eco Logo' as required by the CT Department of Administrative Services. The types of cleaning products covered by this legislation include: general purpose cleaners, bathroom cleaners, glass cleaners, floor finishers, floor strippers, hand cleaners and soaps. Disinfectants, disinfecting cleaners, sanitizers or other antimicrobial products regulated by federal Insecticide, Fungicide and Rodenticide Act are not covered by this law.

In accordance with the law, "No parent, guardian, teacher or staff member may bring into the school facility any consumer product which is intended to clean, deodorize, sanitize or disinfect."

Listed below are the names and types of cleaning products used in the schools as well as where and when they are used.
