## 104 SCHOOL DISTRICT MISSION STATEMENT

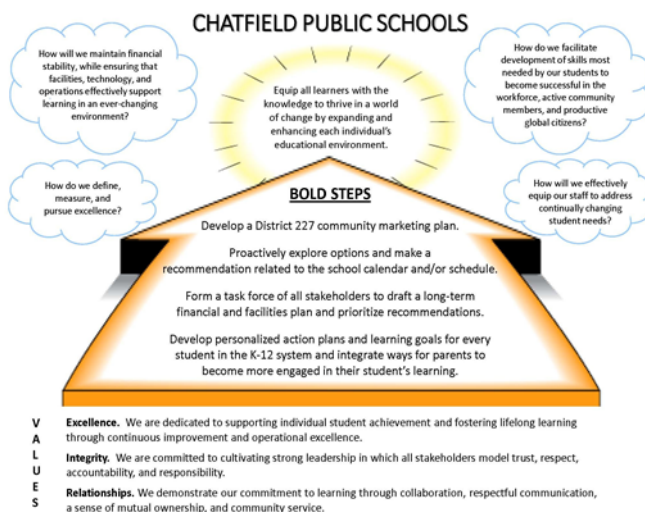

### I. PURPOSE

The purpose of this policy is to establish a clear statement of the purpose for which the school district exists.

### II. GENERAL STATEMENT OF POLICY

The school board believes that a mission statement should be adopted. The mission statement should be based on the beliefs and values of the community, should direct any change effort and should be the basis on which decisions are made. The school board, on behalf of and with extensive participation by the community, should develop a consensus among its members regarding the nature of the enterprise the school board governs, the purposes it serves, the constituencies it should consider, including student representation, and the results it intends to produce.

### III. MISSION STATEMENT

#### MISSION

Equip all learners with the knowledge to thrive in a world of change by expanding and enhancing each individual's educational environment.

#### VALUES

**Excellence.** We are dedicated to supporting individual student achievement and fostering lifelong learning through continuous improvement and operational excellence.

**Integrity.** We are committed to cultivating strong leadership in which all stakeholders model trust, respect accountability, and responsibility.

**Relationships.** We demonstrate our commitment to learning through collaboration, respectful communication, a sense of mutual ownership, and community service.

**IV. REVIEW**

The school board will review the school district's mission every two years, especially when members of the board change. The school board will conduct a comprehensive review of the mission, including the beliefs and values of the community, every five to seven years.
