LTI Corner

Learning Through Internships is our way to have each student receive the 'real-life' experience and apply what they have learned and discover new passions. Every month, this section will include an intern and their story.

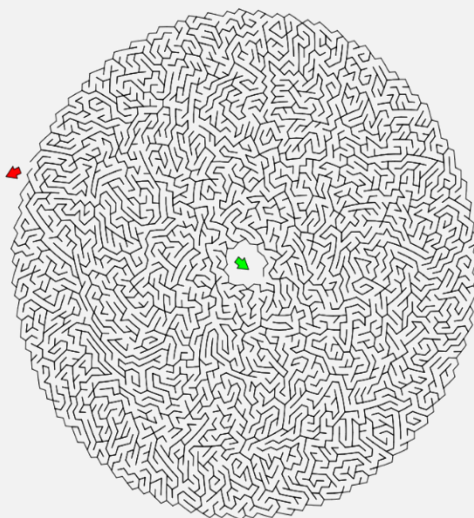

This is Tulsa MET's way of connecting **community, family and on the job experience** which focuses on the interest of each student and their individualized learning path on route to Graduation. Not only, do we have each student commit to their learning plan, but we also assist in helping them to take responsibility and ownership of the work they produce.

When that nap was so good you have to save it for later

GAMEZONE

featured artist

highschool-vs-reality

walking through the hallways.
 where have all my memories gone?
 look outside.
 notice all the strays.
 I'm just a pawn.
 you can't see the bigger picture.
 the deceit and horrid backstabbing
 Reality seems to flicker.
 Ceilings close in.
 you're in a different space.
 wake up!
 back into reality, you go.
 back into the world that is shown as
 a bad place,
 looking into the crevices
 delight and hidden pleasure.
 you discover a whole new outlook.
 The darkness in your shadow
 dissipates.
 you step into this peace.
 euphoric waves seem to envelop
 you
 Havoc seems to cease to exist.
 little do you know
 This is just the calm before the
 storm. – Hannah Fexer
