

Writing for Career and College - Unit 3: My Writing and My Career

Unit Focus

During the prior unit, students learned skills and strategies for academic writing. In this final unit, all of the learning thus far will be transferred to career-based writing. Students will be encouraged to reach out to people in career fields that interest them as a means to learn about the type of writing that those professionals do. We will use that information to help students further develop the types of writing skills that they will need to thrive in their careers. This means that many of the lessons in this unit will be driven by the students' needs and not a pre-determined list. In addition, some time will be spent talking about email etiquette.

As with the prior two units, all writing will go into a portfolio. At the end of this unit, and thus the course, students will reflect on their growth.
