

## **Short-Term, Part-Time Upper School Physics Teacher**

Pace Academy is an independent college preparatory school in Atlanta, Ga., with an enrollment of 1107 students in Pre-First through 12th grades. Pace has an opening for a short-term, part-time Physics teacher for the 2019 Spring Semester.

As a science department at Pace, we are committed to preparing our students to face the growing challenges of a 21st-century, global world. There are big problems that need solving, and our students need to master the tools and processes to bring their ideas and solutions to life. Our "Physics First" curriculum immediately immerses 9th-graders in real-world science. Through numerous labs and in-depth, month-long projects, they see repeatedly how class concepts connect to everyday life. At the same time, physics lays the theoretical foundation for a deeper understanding of chemistry in 10th-grade and biology in 11th-grade. We are looking for a physics teacher who excels both as an instructor and as a mentor in guiding our students to learn the skills that will be indispensable for this next generation of innovative problem solvers.

Essential responsibilities include:

- Making effective use of classroom time to academically prepare students
- Helping students with academic progress both in classroom and during extra help sessions
- Preparing and administering tests, quizzes, labs, and projects
- Maintaining discipline in classroom
- Following appropriate safety procedures while setting up classroom and while administering labs

Qualifications include:

- The ideal candidate will have a bachelor's degree or higher in Physics, Engineering, or similar major.
- Experience that includes setting up and supervising students in a secondary school physics laboratory is preferred.
- Strong sense of humor, flexibility, and a strong desire to work with teens is required.
