

ORANGE HIGH SCHOOL

INTRODUCING THE EARLY COLLEGE ACADEMY

Imagine graduating high school with a diploma and a college degree. Orange High School is making that possible for incoming freshmen. Dual enrollment, signature programs and dedicated Career Technical Education (CTE) pathways are designed to give students a competitive edge.

EARLY COLLEGE | JUMP START YOUR FUTURE

In partnership with Santiago Canyon College, Orange High School is proud to offer an Early College program for incoming freshmen. Beginning in Fall 2018, students enrolled in this special program will embark on a guided pathway that will fulfill their graduation and UC requirements without ever leaving campus. This enhanced dual enrollment program gives students a competitive edge on college applications and provides a unique opportunity to earn a high school diploma and Associate of Arts college degree – for free. Enrollment is limited so please inquire early for consideration.
