APPROVAL OF AGENDA

Yes 8 (absent: Sue Craugh) No 0 MC

ACCEPTANCE OF MINUTES

The Board accepted the minutes of the November 13, 2018 Regular Meeting as submitted.

ACCEPTANCE OF TREASURER'S REPORT

The Board accepted the Treasurer's report as submitted.

PRESENTATIONS:

Dan Blankenberg: Mr. Blankenberg updated the Board on the Food Waste and Recycling Program. The program is going well. The students have taken ownership and are aware about recycling. Andrea Robertson, Envirothon team is getting involved with the program, field trips and seeing the compost area. Ontario County wants to expand this program with Naples, Midlakes and Canandaigua Schools. The Districts will be using Marcus Whitman's assessment/model to get them started with the program. Ontario County is helping Districts with funding to get started and Marcus Whitman is getting funds to purchase more products.

ADMINISTRATORS' REPORTS

Jeramy Clingerman: Mr. Clingerman presented to the Board about school safety. The District has implemented a Safeschool Helpline. This is a hotline that can be accessed by calling, text or using a mobile app for students, staff, parents, community members to communicate mental health concerns, school threats, etc. This is an anonymous helpline and has 24/7 support if needed.

Mr. Clingerman also presented on Navigate Prepared. Our school safety plans are being uploaded into the program, student and staff information is also being uploaded into this system. If there is a threat to school, teachers have access to student rosters and will be able to send out an alarm if needed. First responders will have access to the building plans and have a visual of all the classrooms.

Mr. Clingerman gave an update on the Capital Project. The District is hoping to have bids go out in January. March-April will begin work with completion in the fall.

Motion by Keri Link seconded by Cory Clark to approve the consent agenda.

CONSENT AGENDA:

In an effort to expedite the business of the Board of Education, but in no way meant to diminish the importance of each item, a Consent Agenda has been developed.

The personnel appointments are pending clearance of NYS fingerprinting requirements.

Resolution for Participation in the U.S. Communities Cooperative Purchasing Alliance

WHEREAS; the Gorham-Middlesex Central School District pursuant to the authority granted in NYS General Municipal Law Article 5A Section 103 desires to participate in the U.S. Communities Cooperative Purchasing Alliance. Said Alliance is sponsored by the Association of School Business Officials International; the National Association of Counties; the National Institute of Governmental Purchasing; the National League of Cities; the United States Conference of Mayors;

WHEREAS; the Gorham-Middlesex Central School District desires to participate for the purpose of fulfilling and executing its respective public governmental purposes, goals, objectives, programs and functions;

WHEREAS; the Gorham-Middlesex Central School District has reviewed the benefits of participating in this program and based on this review has concluded the program will provide the best value to taxpayers of this Gorham-Middlesex Central School District through the anticipated savings to be realized;

NOW, THEREFORE, BE IT RESOLVED, by the Governing Board of the Gorham-Middlesex Central School District is authorized to participate in the U.S. Communities Cooperative Purchasing Alliance and that the Superintendent or designee is authorized to register for the U.S. Communities program on behalf of Gorham-Middlesex Central School District;

I certify the foregoing is a true and correct copy of the Resolution duly adopted by the Governing Body of the Gorham-Middlesex Central School District on the 10 day of December, 2018.

Approve Standardization Resolution for Facilities Department

Be it resolved that pursuant to GML Section 103(5) whereas the Gorham-Middlesex Central School District has a substantial investment in the Day Automation, Simplex, Johnson Controls Facilities Management and Controls System, and wishes to expand the system, that in the interest of efficiency, economy, and standardization to improve operational performance of the buildings, reduce the life cycle cost of the buildings, prevent the need for additional costly training and lessen cost due to the needs to maintain a smaller parts inventory; all Gorham-Middlesex Central School District projects shall include the Day Automation, Simplex, Johnson Controls Building Automation System provided by Day Automation, Simplex, Johnson Controls.

Approve Standardization Resolution for Facilities Department

Be it resolved that pursuant to GML Section 103(5) whereas the Gorham-Middlesex Central School District has a substantial investment in the Corbin Russwin Locks and Best Locks System, and wishes to expand the system, that in the interest of efficiency, economy, and standardization to improve operational performance of the buildings, reduce the life cycle cost of the buildings, prevent the need for additional costly training and lessen cost due to the needs to maintain a smaller parts inventory; all Gorham-Middlesex Central School District projects shall include the Corbin Russwin Locks and Best Locks System provided by Corbin Russwin Locks and Best Locks.

Approve CSE & CPSE Recommendations: Be it resolved that upon the recommendation of the Superintendent, the Board of Education of the Gorham-Middlesex Central School District does hereby approve the CPSE/CSE recommendations as submitted and filed in the minute file.

STUDENT HEALTH SERVICES

The Board of Education recognizes that good student health is vital to successful learning and acknowledges its responsibility, along with that of parent(s) or guardian(s), to protect and foster a safe and healthful environment for the students.

The school shall work closely with students' families to provide detection and preventive health services. In accordance with law, the school will provide vision, hearing, dental inspection and scoliosis screening. Results shall be referred to the parent(s) or guardian(s) who shall be encouraged to have their family physician/dentist provide appropriate care.

In order to enroll in school a student must have a health exam and submit a health certificate within 30 calendar days after entering school, and upon entering pre kindergarten or kindergarten, and first, third, fifth, seventh, ninth grade. The examination, which must conform to state requirements, must have been conducted no more than 12 months before the first day of the school year in question. If a student is unable to furnish the health certificate, the school will provide a physical examination by a licensed provider. A request for exemption from the physical examination, or the requirement to provide a health certificate, must be made in writing to the school principal or designee, who may require documents supporting the request. The only basis for exemption is a claim that the physical examination is in conflict with the parent or guardian's genuine and sincere religious belief.

In order to enroll in school, students must also furnish documentation of required immunizations against certain communicable diseases, as set forth in state law and regulations, unless exempted from immunizations for medical or religious reasons as permitted by state law and regulation.

Homeless students shall be admitted to school even if they do not have the required health or immunization records, but may be temporarily excluded if they show actual symptoms of a communicable disease that poses a significant risk of transmission to others (see "Communicable Diseases" below).

The McKinney-Vento liaison shall assist homeless students covered by that law in accessing health services described in this policy and accompanying regulation.

The Board recognizes that the State of New York may authorize and require the collection of data from health certificates in furtherance of tracking and understanding health care issues that affect

children. The Board supports these efforts and expects administrators to cooperate and to observe the appropriate laws and regulations in carrying out those responsibilities, including those that relate to student privacy.

In addition, students will be asked to provide a dental health certificate when they enroll in school and in accordance with the same schedule as the health certificate.

A permanent student health record shall be part of a student's cumulative school record and should follow the student from grade to grade and school to school along with his/her academic record. This record folder shall be maintained by the school nurse.

Emergency Care

Each school in the district will include in its emergency plan a protocol for responding to health care emergencies, including anaphylaxis, and head injury. Parents/guardians will be notified of any emergency medical situation as soon as is practicable. Parents/guardians will receive notification of non-emergent medical situations that have been reported to the nurse in a timely manner.

Schools shall also provide emergency care for students in accidental or unexpected medical situations. The district will stock epinephrine auto-injectors for non-patient specific use. The district shall ensure that designated staff are properly trained.

The district permits emergency administration of opioid antagonists, such as naloxone, by: trained responders and/or the school nurse to prevent opioid overdose.

Communicable Diseases

It is the responsibility of the Board to provide all students with a safe and healthy school environment. To meet this responsibility, it is sometimes necessary to exclude students with contagious and infectious diseases, as defined in the Public Health Law, from attendance in school. Students will be excluded during periods of contagion for time periods indicated on a chart developed by the school nurse.

During an outbreak of these communicable diseases, if the Commissioner of Health or his/her designee so orders, the district will exclude students from school who have an exemption from immunization or who are in the process of obtaining immunization.

It is the responsibility of the Superintendent of Schools, working through district health personnel, to enforce this policy and to contact the county or local health department when a reportable case of a communicable disease is identified in the student or staff population.

Administering Medication to Students

Neither the Board nor district staff members shall be responsible for the diagnosis or treatment of student illness. The administration of prescribed medication to a student during school hours shall be permitted only when failure to take such medicine would jeopardize the health of the student, or the student would not be able to attend school if the medicine were not made available to him/her during school hours, or where it is done pursuant to law requiring accommodation to a student's special medical needs (e.g., Section 504 of the Rehabilitation Act of 1973). "Medication" will include all medicines prescribed by an authorized medical provider.

Before any medication may be administered to or by any student during school hours, the Board requires:

1. the written request of the parent(s) or guardian(s), which shall give permission for such administration and relieve the Board and its employees of liability for administration of medication;
2. the written order of the prescribing authorized medical provider, which will include the purpose of the medication, the dosage, the time at which or the special circumstances under which medication shall be administered, the period for which medication is prescribed, and the possible side effects of the medication; and
3. that in order for a student to carry and use a rescue inhaler, an epinephrine auto-injector, insulin, or glucagon and associated testing supplies and any other medication approved by the prescribing doctor, parent and school nurse, written permission must be provided both by the parent and the prescribing authorized medical provider in accordance with state law and regulation.

Students are allowed to carry and apply parentally provided sunscreen without a prescription from a medical provider, assuming that the sunscreen is FDA approved and that the sunscreen is not treating a medical condition. Parents need to provide the district with written permission for students to use sunscreen.

NYSSBA Sample Policy 5420

Permission slips and medical orders shall be kept on file in the office of the school nurse.

Life-Threatening Allergies and Anaphylaxis Management

The Board recognizes its role and responsibility in supporting a healthy learning environment for all students, including those who have, or develop, life-threatening allergies. The district will work cooperatively with the student, their parent/guardian and healthcare provider to allow the child to participate as fully and as safely as possible in school activities. When a student has a known life-threatening allergy reported on their health form or if the district has been informed by the parent of the presence of a life-threatening allergy, the district will assemble a team, which may include the parent, the school nurse, the child's teacher, the building principal and other appropriate personnel, which will be charged with developing an individual health care plan and/or an emergency action plan. The plan(s) will be maintained by the school nurse. The

plan(s) will guide prevention and response. If the student is eligible for accommodations based upon the IDEA, Section 504 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding identification, evaluation and implementation of accommodations.

Training

Training to support the fulfillment of staff responsibilities in regard to student health services will be provided as part of the district's ongoing professional development plan and in conformity with Commissioner's regulations.

Regulations

The Superintendent shall develop comprehensive regulations governing student health services. Those regulations shall include the provision of all health services required by law, procedures for the maintenance of health records, and procedures for the administering of medication to students. The Superintendent shall also develop protocols, in consultation with the district medical director and other appropriate district staff, for the management of injury, with particular attention to concussion.
