The data are to be available by July 1 each year for the most recent cohort that has had 150 percent of normal time for completion by August 31 of the prior year.

**4. If the information is requested by a prospective student, it must be made available prior to the student's enrolling or entering into any financial obligation with the institution.**

Note: Institutions may add other information to their completion/graduation rate disclosures (e.g., graduation rates for other timeframes, but the HEA-required information must be identifiable and separate from any additional information).

**DISAGGREGATED COMPLETION/GRADUATION RATES**

**5. The HEOA (Sec. 488(a)(3)) added a provision requiring that the completion or graduation rates must be disaggregated by · gender; · major racial and ethnic subgroup (as defined in IPEDS); · recipients of a Federal Pell Grant; · recipients of a subsidized Stafford Loan who did not receive a Pell Grant; and · students who did not receive either a Pell Grant or a subsidized Stafford Loan. Students are to be considered to have received a grant or loan if they received it [for] the period used for determining the cohort – fall term or full year. These disaggregated rates are to be disclosed only if the number of students in each group is sufficient to yield statistically reliable information and not reveal personally identifiable information about an individual student. The requirement for disaggregation does not apply to 2-year degree-granting institutions until academic year 2011-2012.**

Exclusions

Institutions are allowed to exclude from completion/graduation or transfer-out rate calculations those students who leave school to serve in the Armed Forces, on official church missions, or with a federal foreign aid service, or are deceased or totally and permanently disabled.

The HEOA (Sec. 488(a)(2)) added a provision that applies to institutions for which students who leave school to serve in the Armed Forces, on official church missions, or with a recognized federal foreign aid service represent 20 percent or more of the certificate- or degree-seeking, full-time undergraduates at the institution. Those institutions may include the students who leave for such service in their completion/graduation rate calculations but allow for the time the students were not enrolled due to their service by adding the time period the students were not enrolled due to their service to the 150 percent of normal time used in the calculations.
