

Private School

Before Hamden places a student with a disability in, or refers a student to, a private school or facility the District initiates and conducts a meeting to develop an IEP for the student.

A representative of the private school or facility attends the IEP meeting. If the representative cannot attend, the District uses other methods to ensure participation by the private school or facility, including individual or conference telephone calls. Compliance with IDEA Part-B and CGS Section 10-76 remains the responsibility of the District even in those instances where the District has a private facility implementing a student's IEP. This responsibility includes conducting PPT meetings to develop, review and revise the student's IEP and determine eligibility for special education services.

No placement is made unless it is in accordance with a student's IEP as developed by our District PPT. Placement in a private facility after a three-year period requires the annual approval of the State Department of Education, or annually, after two years if the placement is in an out of state facility.
