

Village Community School is strengthened and enriched by the diversity of our students, families and staff. We are committed to cultivating intellectual, social and emotional growth in an inclusive environment where diverse experiences and perspectives are essential to the rigorous education we provide.

We believe diversity is crucial to academic vitality. All students learn better in classrooms with racial as well as other forms of diversity. Our social studies-centered curriculum further advances this aim, immersing children in multiple perspectives different from their own—historically, culturally, economically—promoting empathy and respect.

Inside and outside the classroom, we encourage genuine conversation about complex issues. We provide the supportive environment and tools needed to identify limiting beliefs, break through uncomfortable barriers and affirm the identities of all members of our community.

We are an anti-bias community committed to building a more equitable society through our actions. We develop leaders. Our students have the character and the courage to confront injustice and to advocate for themselves and others. They recognize their responsibility in shaping the world in which they live.
