Digital Citizenship Announcements Week: Privacy & Security 1/18/19

Here are a few words of wisdom regarding digital citizenship. This week, we are focusing on Privacy & Security. Did you know websites have privacy policies that you can access before you create accounts? Looking at these policies should be a step we all take before creating an account. You'll be able to see what the website does with your information after you give it out.

At Maryville City Schools, we recommend that each person: Begin to look at the privacy policies each time you create an account online. Review the information with your family and ask permission before you create the account. The information you give out online can impact your life offline.

The choices are yours.
