5. New Business
5.1 Advanced Placement, College Entrance Exams
Five documents were distributed; ‘SAT 2016 College-Bound Seniors High School Highlights Report – Spaulding High School (H460015)’, ‘ACT PROFILE REPORT – High School – SECTION I EXECUTIVE SUMMARY’, ‘AP Five-Year School Score Summary (2016)’, ‘Reports Center Scores by Institution’ (9th grade), ‘Reports Center: Scores by Institution’ (PSAT – 9th, 10th, and 11th grades). Mr. Nicholson addressed the Board and provided an overview of the reports, including testing and data. PSAT testing for 9th grade was implemented last year, with the goal of tracking progress and identifying students’ strengths. Regarding SAT testing, Mr. Nicholson advised that juniors are encouraged to take the March test, and take the test again in the fall of their senior year, if they wish to improve their score. PSAT testing occurs during the school day, at no cost to the students. PSAT results will be available to the school on December 2, 2016, and will be available to students on December 9, 2016. SAT testing is usually performed on weekends. SBAC testing was performed for 11th grade only.

5.2 Proficiency-Based Learning
Six documents were distributed; sample transcripts, sample report card, a report card ‘legend’, a Transferable Skills rubric, and a rubric for course performance ratings with corresponding GPA values. Mrs. Waterhouse gave a Power Point Presentation on Proficiency Based Learning and Reporting. The comprehensive presentation included background information, identification and communication of Standards, course expectations, and grading, including Transferable Skills (which count towards participation in
5.3 SBAC
A document titled ‘The SBAC Assessment: An Overview of the Spring 2016 Results’ was distributed. Mr. McCraw addressed the Board advising that a Power Point presentation would be presented to provide an overview of SHS SBAC scores. Mr. McCraw advised that at the high school level, only students in 11th grade are tested. This is the first year that contains usable data and is the first year of being held accountable for the results. No trend data is available, as 3 years of ‘usable’ data is required for trending purposes. Mr. McCraw presented the Power Point presentation which included results of Spring 2016 testing, with and without disaggregated data based on gender, free/reduced lunch, and students with disabilities. Additional data included comparisons between SHS and State averages. It was noted that SHS students generally achieved a rate that is lower than the state average. It was also noted that data on specific subgroups was not provided by the State, as there are too few students in those categories (English-language learners, Migrant works, and Races other than white). Mr. McCraw also provided an overview of the initiatives being implemented (locally and state-wide), to help improve achievement/scores. It was noted that SAT results are higher than SBAC scores. This discrepancy can be attributed to the fact that there is a different cohort of students being tested. SBAC testing is given to all students. SAT testing is performed by college bound students. Mrs. Perantoni advised that she would like to see SBAC testing performed when students are ready, as opposed to testing on a specified date.

6. Old Business
6.1 Act 46 Update
Four documents were distributed; A document from the State Board of Education (dated October 18, 2016), titled ‘AGENCY OF EDUCATION’, ‘Talking Points on Act 46 in Barre’, ‘Barre Act 46 Frequently Asked Questions – October 2016’, and Draft Minutes of the October 6, 2016 Act 46 -706 Study Committee. Community members were encouraged to vote on Tuesday. Mr. Isabelle advised that he is aware of lawn signs that may be posted illegally. Mrs. Perantoni encouraged the community to vote based on what is in the best interest of the children, rather than based on ‘boundary lines’. Mr. Herring advised regarding the State Board of Education’s approval of the proposed plan and advised that if consolidation is not approved, the State may impose consolidation, but at that point, the districts would lose the tax credit that exceeds four million dollars. Mr. Pandolfo advised community members who have questions, to contact Committee Members or review the web site.

6.2 FY ’18 Budget Development
Mr. LaCroix advised of the early stage budget discussions which have included discussion of negotiations, benefit changes, an increase in the Health Assessment cost increase, increases for the Work Based Learning Program ($100,000), and the Flexible Pathways Program ($75,000). A quote from BBC LLC, Brian Boucher Controls, LLC was distributed. Facilities Director, Jaime Evans is requesting Board authorization to move forward with this project. The proposal is for installation of ventilator units. Replacement of ventilator units has been an ongoing project. Monies are available in the current fiscal year budget. Mr. Evans proposes that installation take place during April vacation. Mrs. Waterhouse noted that the original ventilator units were installed in 1964. On a motion by Mr. Folland, seconded by Mr. Isabelle, the Board unanimously voted to approve the Facilities Director’s request, and authorized the project to move forward with funding from the current fiscal year’s budget, at a cost not to exceed $40,000.
