5.3 Sprinkler System Update
Three e-mails (dated 05/11/17, 05/23/17, and 05/24/17), relating to the sprinkler system were distributed. A copy of the ‘Meeting Record’ from the Vermont Department of Public Safety – Division of Fire Safety, was also distributed. Mr. Pandolfo provided historical information regarding discussion/action relating to the sprinkler system. Discussion was initiated in September 2015. Mr. Pandolfo stressed that SHS will complete any work that is necessary to be compliant with Fire Safety Code. At the present time, there are outstanding questions relating to specific requirements, laws, and regulations. The school’s insurance company is involved in the research of requirements. It is estimated that it will cost ½ to 1 million dollars to complete installation of sprinklers throughout the remainder of the building. It was noted that safety is two-fold; Safety of students and staff, and safety of the building structure/contents. Mr. Blakely raised concern relating to false sprinkler alarms that cause ruination of property. Mr. Malone voiced concern regarding damage caused by sprinklers, financing of sprinkler installation, the possibility that mandatory sprinkler installation would result in other items not getting done, passing a budget that includes a costly sprinkler installation, and steps to take in the event that voters don’t approve sprinkler installation funding. Research will continue and Mr. Pandolfo will provide additional information at future Board meetings.

6. Old Business
6.1 Labor Relations Agreements
A document containing screen prints of a Power Point presentation titled ‘Salary Schedules’ (June 2017) was distributed. Mr. Pandolfo provided an update regarding negotiations with teachers, para-educators and custodial/maintenance personnel (AFSME). Negotiation meetings with para-educators and AFSME representatives were cancelled and are in the process of being rescheduled. The Negotiations Committee is currently waiting for confirmation of a meeting date and Fact Finder so that teacher negotiations may continue. Mr. Pandolfo presented the Power Point presentation to provide Board Members with detailed information relating to salary schedules and their financial impact. The presentation included the Salary Schedules for 2016 and 2017 (including salaries by ‘Step’ for the various salary categories: Bachelors, Bachelors + 15 Credits, Bachelors + 30 Credits, Masters, Masters + 15 Credits, and Masters + 30 Credits), the current Index and an explanation of how an Indexed Salary Schedule works, movement of employees within the Salary Schedule, examples of employee increases for various Salary Categories (Bachelors, Masters, and Masters +15), and an explanation of how a settlement works utilizing an Indexed Salary Schedule (including the increase in the Base and ‘New Money’). It was noted that the current contract results in teachers (who are not at the top of their pay schedule) receiving 2 to 3 increases per year (1
for an increase in the Base, 1 for the increase in Step, and 1 for teachers who have a change in category). Teachers who are at the top of the Salary Schedule receive one increase as a result of the Base increase. The presentation documented increase percentages and included a comparison to the CPI by calendar year. It was noted that an increase in the Base Salaries causes increases in all stipend amounts (Department Heads, Coaches, etc.). The presentation documented that over the years, salary increases (averaging between 4.9% and 6.2%) have been significantly higher than the CPI increase. It was noted that the Step System is not sustainable with CPI increases of approximately 1% per year. In response to a query, it was noted that benefits are in addition to the salary amounts. Currently 80% of health insurance premiums are paid by the SU or district school, amounting to an additional $15,000 to $20,000 in cost (to the SU or district) for the ‘family plan’. Additional costs include contribution to the State Retirement Program. Mr. Pandolfo provided an overview of some additional benefits, including sick days (and their accrual), personal days, bereavement days, and family leave. It would be beneficial for the Board to know all of the employee benefits. It was noted that Vermont ranks 16th in the nation for teacher salaries. There are 190 ‘teacher days’ per year, as opposed to 261 working days for regular full time jobs.

6.2 Summer Project Updates and Bid Recommendations
The document presented for this agenda item, titled ‘SHS/CVCC Facility Projects, Etc…Summer 2017, 6/1/17’, was distributed under Agenda Item 5.2. Mr. Pandolfo provided an overview of the bids related to summer projects and advised regarding his recommendations.

On a motion by Mr. Folland, seconded by Mr. Isabelle, the Board unanimously voted to approve hiring Flinn Scientific for renovations to the science room (including cabinetry and lab stations).

On a motion by Mr. Rousse, seconded by Mr. Isabelle, the Board unanimously voted to approve hiring Brian Boucher (BBC) for installation of Unit-ventilators.

No motion for approval is necessary for flooring installation (for the office and science room #113) or chalk board removal, as the bids are lower than the $15,000 threshold limit. The winning bid from Jeff Lackey is $13,392.

RFPs for fuel (wood chips, oil and propane) and plowing services will be sent out at a later date.
