If your child needs health care coverage, here are some options to consider:

Medicaid

Utah Medicaid pays medical bills for people who qualify for a category of Medicaid who have low income or cannot afford the cost of health care; who have resources (assets) under the federal limit for the category of Medicaid.

- Children (birth to age 18) (3 separate programs based on age and need)
- Children in Foster Care or Subsidized Adoption
- Special Medical Needs
- Adults (over age 18) with disabilities

Children's Health Insurance Program (CHIP)

- CHIP is now always open for enrollment.
- If your children don't have health insurance, CHIP may be able to help.
