IRS Data Retrieval Tool (DRT)

- While completing FAFSA on the web, the applicant may submit a real-time request to the IRS to pre-populate tax data
- Participation is voluntary but highly recommended
 - ✓ Completion of income data is quicker and easier
 - ✓ Reduces documents required by the financial aid office if the FAFSA is selected for a process called “verification”
- System is extremely picky! Data must be entered exactly as it appears on your tax return
- Some will be unable to use the DRT (option will not appear)
 - ✓ Filed a foreign tax return
 - ✓ Married but filing separately
 - ✓ Filed an amended tax return

FAFSA Processing Results

- FAFSA notifies student of processing results by email notification containing a direct link to student's online Student Aid Report (SAR)
- Institutional Student Information Record (ISIR) sent to colleges listed on FAFSA approximately 3 business days after FAFSA is submitted

Correcting the FAFSA

- Corrections can be made after the FAFSA has been submitted and processed
- Can add or remove a college
- Do not make too many corrections
 - ✓ Assets should be corrected only if an error was made; they should not be updated as accounts fluctuate.

Institutional Financial Aid

- Need or non-need based financial aid from the college's own funds awarded based on the institution's formula and policies
- Based on information provided on the CSS Profile or a custom institutional application as well as supporting documentation required by the college
- Information from the non-custodial parent is generally required
- Tax losses may be added back
- Depreciation associated with a business or investment property may be added back
- There may be a minimum student contribution
- Allowances for number of dependents enrolled in college may be different

Institutional Financial Aid: Where do I start?

- Learn the college's financial aid application requirements and deadline date(s).
- Use the Net Price Calculator available on each college's web site.

Net Price Calculator

- Will help you estimate how much financial aid may be offered from each school.
- Carefully read all instructions and pop ups.
- All calculators are not alike.
 - ✓ Each college builds theirs based on their policies.
- Don't forget untaxed income
 - ✓ ie. Payments to tax deferred pension plans (W2, Box 12 codes D, E, F, G, H & S – NOT DD)

Institutional Financial Aid

- Questions to ask the financial aid office:
 - ✓ Do they award merit and/or athletic scholarships or do they award only need based aid?
 - ✓ Do they meet full need?
 - ✓ Is aid package guaranteed all four years or will your award change each year?
 - ✓ What happens if another dependent enrolls in or leaves a undergraduate program?
 - ✓ Do they look at home equity or retirement accounts?
 - ✓ Do they have a minimum student contribution?
 - ✓ Do they add back tax losses or depreciation?
 - ✓ If a noncustodial parent cannot be located, how do I waive requests for their information?

CSS/Financial Aid Profile

- Offered by CollegeBoard
- Not required by all schools
- Used to determine eligibility for need-based institutional grants
- There is a cost
- If applicable, the non-custodial parent will complete a separate Profile after the custodial Profile has been submitted
- Once the Profile has been submitted, you will not be able to make corrections. If you discover an error, contact the school's financial aid office directly.

Institutional Documentation Service (IDOC)

- Offered by CollegeBoard
- Many schools that participate in the CSS Profile also participate in IDOC
- A family will upload or send their required application documentation (ie tax returns & W2s) to IDOC. IDOC will then make the documentation available to all schools the student has indicated they are applying to who participate in the service
