E. DISCUSSION, REPORTS, INFORMATION ITEMS

1. Effective Operations: Improve our effective management of human, financial, and physical resources.

Master Facilities and Programming Study: Master Plan Overview and Update – Dr. Ronneberg, Superintendent, and Amy Schultz, Director of Business Services, gave a review of the three
phase Master Facilities and Programming Study that has been going on since 2010. Dr. Ronneberg gave a brief history beginning with the 2006 voter approved bond. Much of the 2006 bond was to cover deferred maintenance costs. The school district is working hard to protect the 2006 investment of the community through the Master Facilities and Programming Study. The current bond will have virtually no deferred maintenance costs included.

Phase I was completed in fall of 2013 and included: completion of enrollment and demographic study, 10-yr Master Facilities and Programming Plan was developed, additions were completed at Park Terrace and Northpoint, and Spanish Immersion was moved to Woodcrest Elementary.

Focus on Phase II began in 2014 to address projected enrollment growth, overcrowding at the Westwood site, and early learning space needs. Goal is that the focus of Phase II will include addressing Phase III, thus moving the Master Facilities and Programming Study to a two phase project, rather than three phases. Phase III is to address anticipated space needs at the high school.

Initial activities completed during Phase II include: updated enrollment and demographic study, identified space constraints at each grade level, approval from Blaine for additional driveway at the Westwood complex, site/space review of student athletics/activities needs, continued updates to the Master Facilities and Programming Plan to address deferred maintenance and student programming needs. The Community Facilities Design Team, a group of community members, parents, staff, students, and administrators, met for over 20 hours in the Spring of 2015 to assist in the development of recommendations to address projected enrollment growth. Their work, based on educational needs, current and projected enrollment growth, and the future vision for the district, led them to the following recommendation: construct a new K-4 elementary school to open in Fall of 2018, while reconfiguring Northpoint and Park Terrace to K-4 elementary schools. Woodcrest Spanish Immersion would remain K-5, and the Westwood Complex would reconfigure to grades 5-8.

A review was given of the near-term (1-3 years), mid-term (4-6) years, and long-term (7-10 years) projects in the Master Facilities Plan.

Near Term projects include: Items likely to be part of a Bond: construction of a new K-4 elementary school, addition and remodeling of classrooms at Spring Lake Park High School, construct classroom space for early learning, provide additional space for special education; Items not part of a Bond: continue Innovative Spaces projects, update equipment in SLPHS fitness center and weight room, additional windows in Westwood Complex and Spanish Immersion classrooms, update science classrooms at Westwood with addition of sinks.

Intermediate Term projects include: continue Innovative Spaces in all schools, provide gallery spaces at all schools, expand cafeteria space at Woodcrest Spanish Immersion.

Long Term projects include: revisit Community Facility Design Team identified projects for viability in the future, which include: outdoor learning spaces at Westwood and Spanish Immersion, Westwood garage renovation into learning spaces, identify options at each school to further expand more flexible learning spaces, construct early learning addition at Northpoint to accommodate potential growth in programming, if necessary.

The study of current athletic and activity needs was suspended in Fall 2015. A design team of staff, parents and community members will be established in Spring 2016 to assist in plan development.
Next steps of the facilities planning process were highlighted. The Bond Proposal will be presented at the February 9 Board meeting, along with a resolution calling for a bond election and approval of the ballot and question for an upcoming April 26, 2016 Bond Election.

Ms. Schultz gave an overview of the financial stewardship of the district including 10-year plan to maintain the community investment in facilities, bond refunding opportunities to reduce taxes for local residents, paying off debt early allowing the additional of classrooms at Northpoint and Park Terrace during Phase 1 at no cost to taxpayers, approval of 2016-17 property tax levy at a lower level than the previous year, resulting in lower taxes.

2. **Engaged, Enthusiastic Learners:** Align work of adults to continuously improve personalized instruction and responsiveness to meet our students’ unique and varied needs.

**World Languages Update** - Dr. Hope Rahn, Director of Learning and Innovation shared that the World Languages project is a continuation of a 2014 project to look deeper at programming in this area. Ms. Lisa Swtizer, Learning and Teaching Coordinator, referenced the research and learning work being done to continue moving this project forward. Mr. John Franke shared next actions in programming for 5th, 6th, and 7th grade Spanish Immersion and Heritage speaking students. Next actions for Fall of 2016 include: deepen implementation of current world language offerings in Spanish and German by: adding AP Spanish at high school level; adding introductory world language courses for Spanish and German as 7th grade electives; integration of the current world cultures course into the work language elective; Introduce the Juntos program which is a dual language approach to offer opportunities to immersion and heritage speakers to deepen student understanding in academic content areas while expanding language fluency at the middle and high school grades. Member Forsberg asked if the district will be able to find teachers with the necessary requirements to teach the courses. Dr. Rahn stated that recruiting for the positions is already underway.

3. **Superintendent’s Report** - Dr. Jeff Ronneberg, Superintendent of Schools asked Hope Rahn to give a review of the recent e-learning day at Westwood Middle School and Spring Lake Park High School. Dr. Rahn shared that the day was successful for student learning with a positive impact on kids. Student activities on E-Learning days represent the coming to life of about six district operational plan projects.

Dr. Ronneberg asked Ms. Colleen Pederson, Director of Community Education and Outreach, to give an update on upcoming school information nights welcoming students and families to Spring Lake Park Schools. Ms. Pederson shared upcoming Feb Information Night dates. Parents of children who will be age 5 by Sept. 1 are encouraged to register their child(ren) online via springlakeparkschools.org.

Dr. Ronneberg reminded the Board that district curriculum isn’t all about state testing. It’s preparing kids for college and life, which can’t be measured on a state test. He referenced the teaching of empathy and then shared information on the visit by Blair Walsh to Northpoint Elementary.
F. ACTION ITEMS
1. Resolution to Withdraw From East Metro Integration District

Motion by Forsberg, seconded by Ruch, to adopt the following resolution:

C. DISCUSSION ITEMS
1. Project Update and Discussion: Embedded College and Post-Secondary Success – Dr. Hope Rahn, Director of Learning, Teaching and Innovation, Ms. Lisa Switzer, Learning and Teaching Coordinator, Mr. Steve Brady, Associate Principal SLPHS – gave an update on this District Operational Plan project. Focus of the discussion was based on the why of the project, foundations of the project, end goals, and preparation of each student for college/career. The governance question to the board fell in the area of how many college credits should students have by the end of their high school career. Rahn, Switzer, and Brady shared information on research done as well as several Embedded College options, including MN Transfer Curriculum, 12x12 (12 credits by 12th grade), Associates Degree. Further discussion focused on possibilities and benefits for each student, along with keeping the high school experience for students while planning for the future.

2. FY17 Budget Development and Staffing Process: Guiding Change Review – Dr. Ronneberg, Superintendent of Schools, and Ms. Amy Schultz, Director of Business Services, reviewed the components of the 2016-17 Budget Planning and Development Guiding Change, including: context and reality, desired results, and unacceptable means.

3. Project Update and Discussion: Master Facilities and Programming Study – Dr. Ronneberg shared results of the recent Bond survey by Springsted, Inc. Purpose of this survey was to get a look at support for a Bond, support for the projected cost, increase our knowledge of challenges and areas of communication. Survey was based on 400 registered voters that reflect the Spring Lake Park Schools community. Dr. Ronneberg reviewed what projects would make up the Bond and costs associated with each. Board discussion took place around the survey, refunding, second question, Bond projects. Comments centered on the appreciation that the Bond projects focus on school district needs.
