

Elmhurst Community Unit School District 205 Construction Timeline

Elmhurst Community Unit School District 205 is asking voters to consider a \$168.5 million referendum on the November 6 ballot to implement the Master Facility Plan. If approved, the funding will create future focused learning spaces, enhance safety and security, rebuild and replace aging buildings, add more classrooms for optional all-day kindergarten and to balance class sizes across the District.

This is the estimated six-year timeline if the referendum is approved. All-day kindergarten will be offered in our elementary schools, with an exact timeline to be confirmed at a later date. The District will consult community members on the implementation of all-day kindergarten and in the design process of the new schools.

York Community High School

- 2021 Athletic field redevelopments
- 2023-25 Renovate the auditorium
- 2023-25 Maintenance upgrades
