

PART II

SHAPING SHEPAUG: AGRISCIENCE EXPECTATIONS

Tuesday, March 12, 2019 ~ 6:30pm (at the library)
(Snow date Tuesday March 19, 2019 ~ 6:30pm)

The Shepaug Agriscience program has exceeded application expectations for the incoming 9th grade class. Region 12 administrators and staff are pleased with this response, and they wish to continue their mission to inform the community about the program and gather ideas as they move forward.

Region 12 Superintendent Megan Bennett, Principal Kim Gallo, and Agriscience teacher Lori Trovato will continue a community conversation about the future of Shepaug Valley School.

This conversation will focus on the status of the program, curriculum expectations, and the integration plan for new students of Shepaug Valley School. Community members are encouraged to ask questions and share ideas that will help school leaders, faculty, and families guide their vision of the new program. They look forward to seeing many community members!

GUNN MEMORIAL LIBRARY
