## Required Test Conditions Notification

\* Distribute to appropriate students, parents/guardians, workers, and staff at least two weeks in advance of beginning testing, and again a few days before.

A radon test is scheduled for: <address> \_\_\_\_\_

Scheduled placement: <day, date, time> \_\_\_\_\_

Scheduled retrieval: <day, date, time> \_\_\_\_\_

Radon gas is the second leading cause of lung cancer and the leading cause of lung cancer in nonsmokers in the U.S. Radon is a naturally occurring radioactive gas that can be present in some buildings at concentrations greater than recommended. A test must be conducted to determine whether radon is present.

Please help with to maintain the required test conditions throughout the building:

- All windows on all levels and external doors must be kept closed (except for momentary entry and exit) for 12 hours before and during the test period.
- Heating and cooling systems must be set to normal occupied operating temperatures.
- Test devices are not to be disturbed; they should not be moved, covered, or otherwise altered during the scheduled test.

The intent of these requirements is to ensure that valid measurements are made to insure occupant health and owner financial decisions.

Any questions should be directed to:

Name: \_\_\_\_\_ Phone Number: \_\_\_\_\_

Test devices are not dangerous in any way and a sample test device is available to view upon request. For more information regarding radon, see the EPA's *A Citizen's Guide to Radon* at <http://www.epa.gov/radon>

Thank you for your help and cooperation.
