

District Curriculum and Instruction Meeting

2/1/19

1. Review Budget
2. Updates
 - a. RMS Science: Bruce shared document created by science department about allocation of funds. Mary S. pointed out that # of manuals needed with high school is lower than elementary. Also discussion about delaying elementary, but there is a great need for an updated curriculum at that level. Mr. Kelvington asked that all proposals be in by February 27th.
 - b. RHS Science: See above
 - c. Elementary Science: Vetting curriculums. Integration with reading is not a possibility. Meeting again next Monday
 - d. World Languages: Looking at additional items things that are needed for curriculum including listening component (Heritage speakers) Spanish II, outline is completed, now working on pacing guide and DOK. Will come up with final proposal.
 - e. Industrial Tech: Orange Lab is going to be replaced. Discussing moving old computers and creating a new lab to be used for certain I-Tech classes. Needs are updating Vex-V5 system. Looking to add high school robotics course. Request for training will be put into staff development.
 - f. Character Ed/SEL: SEL-working toward vision statements, meeting next Wednesday.
3. Discussion:
 - a. Curriculum Writing Process: Mary shared document with parameters for curriculum writing.
 - b. Handwriting: Grade level leads will survey teams to gather information on how/when handwriting is taught.
