

## DonorsChoose.org at Our School

You are keenly aware of the needs our teachers and students have, but it's not always possible to provide everything they could use.

DonorsChoose.org is a nonprofit website that helps public school teachers get funding for materials and experiences that will help their students learn. Teachers post classroom requests on the site, and citizens donate to make their requests a reality.

Since 2000, DonorsChoose.org has helped over 66,000 public schools obtain over \$385 million in classroom resources, all through the generosity of almost 2 million citizen donors.

### Help teachers at our school get in on the action!

*This is:*

- a great avenue for teachers to get additional resources that will allow them to creatively reach their students.
- a chance for the community to engage with our classrooms by spreading the word about teacher needs or contributing directly.
- an opportunity for citizens across the country to see the exciting things happening in our school.

### Our existing requests. Let's spread these far and wide!

Go to [www.donorschoose.org](http://www.donorschoose.org) and search for Parks Primary School or go to:
