GRADING

Grading Scale: A = 90-100 B = 80-89 C = 75-79 D = 70-74 F = 0-69

High school operates on a two-semester system. Students take 7 courses per semester, and are required to take English, Math, Science and Bible every semester in grades 8-12.

Honors courses reflect an additional 2 points and AP courses reflect an additional 7 points, unless the additional points result in a final grade above 100, in which case the student only receives additional points, leading to an overall grade of 100. This weighting may or may not affect a student's letter grade in the course, are included in the final semester averages, and are calculated into the Core and Overall GPA reflected on the transcript.

Students may only take Honors courses with the permission of the previous subject instructor.

Qualification for the **National Honor Society**: 93.0 cumulative overall numeric GPA at the end of the sophomore year. Qualification for the **National Beta Club**: 90.0 cumulative overall numeric GPA at the end of the sophomore year. Both require faculty approval.

We do not provide individual class rank.

High School STEM Program

providencechristianacademy.org/stem

Nationally certified by **Project Lead the Way**, the STEM program offers students in 9-12 the opportunity to challenge themselves through a STEM Elective Path or a **STEM Scholar Path**. A STEM course is the most rigorous elective a student can choose.

STEM Scholar Requirements: 4 STEM courses and ALL honors/AP Math & Science with a minimum of 2 AP Math and/or Science.

STEM Courses (2 points added – see Grading):

STEM I: Intro to Engineering Design (IED)	STEM III-E: Construction Engineering Architecture (CEA) or III-B: Human Body Systems (HBS)
STEM II: Principles of Engineering (POE)	STEM IV: STEM Senior Capstone (SSC)

Students in the Class of 2016 were the 1st to be eligible to complete the **STEM Scholar Path**. Of the 25 seniors enrolled in a STEM course, 8 received the STEM Scholar recognition. These students matriculated to: Auburn University, Georgia Tech (2), Harvard College, Mercer University (2), & University of GA (2). Their Intended fields of study: Biology/Pre-Med, Biomedical Engineering, Business, Chemical Engineering, Finance/Real Estate, Industrial Design, Mechanical Engineering, and Nursing.

This year, there are 12 seniors enrolled in a STEM course, 5 of which are eligible for the STEM Scholar recognition.
