Technology Safety Plan: Aleesa Thompson went over how the district oversees devices and WiFi. IT, technology specialists, and school administration monitor red flags created by the system. A technology safety assembly will be held November 26.

School Improvement Plan and Financial Update:

We are on track for budget expenditures.

Counseling Department:

-Seeking students who need help for the holidays (up to \$50 on Amazon can be spent for each student who has needs)

-8th grade CCRs are ongoing

-Seeing a spike on students with depression and suicidal thoughts. Assembly on November 26 will hopefully help.

After School Program:

-Awarded a new grant, but for much less money than previous grants. New classes are drama, wrestling, volleyball, and archery.

After-school program will lock doors at 3:15 because students are staying around and disrupting the after-school program.

PTA:**Library:**

-Girls Who Code and Robotics clubs are going well.

Gear UP:

-Currently having students do the annual surveys.

-Looking for students to do a job shadowing experience with the district

-Annual college tour

Other Items:

-C's, B's, and A's Before the Holidays will be held December 20.

Agenda Items for Next Meeting:

-GearUp update
