LUSD Response to Questions Re: Lodi High School Increment 2; 02/11/2019

1. Is the district going to provide drawings, matrix and specifications similar to the Tokay RFP?
 - Schematic level drawings are currently posted as Lodi High School Increment 2 Addendum 1 https://resources.finalseite.net/images/v1549927901/lodiusdnet/jvbjik3y1addndvmqufg/18206_LODIHS_Addendum01_021119_FULLada.pdf
 - There are no specifications or formal matrix beyond the scopes in the RFP's.
2. Will district criteria architect stamp modular manufacturers DSA submittal drawings?
 - Modular manufacturer generally prepares the drawings for approval based on their design and provide stamp. PBK, as Architect of Record, may need to over stamp all documents if required by DSA.
3. Can submission date for RFP be extended for more review time of plans and specifications not currently available?
 - LUSD is not comfortable extending the timeline. As there is no GMP required in the Pre-Con process, contractors will be evaluated on the criteria listed in the RFQ/P. A submittal that meets the requirements of the RFQ/P will be sufficient for the LUSD to evaluate the contractors and make an award recommendation to the LUSD Board of Trustees.

The LUSD will begin collection of all other questions, and will post responses on 02/21/2019 as per RFQ.
