- **Review Survey Results**

We had 14 committee members take the Survey asking for the top three choices for what the TAC should focus on for the year. The questions included:

1. What should the TAC focus on this year?

Apps for Apple devices, Canvas – review, use at different grade levels, Teacher websites, Parent communication, Single sign on solutions, Re-introduction / training on current programs, Google docs and software, Clear definition of purpose for software we already have, How programs work together, Communication on approval process, Learning wall – hardware review, Document cameras – untether

2. Do you have any other suggestions

The top three results are as follows; Canvas, current programs purpose and current programs training. We had Canvas randomly group TAC members into the top three areas of focus.

When you go into the TAC group of Canvas you are a part of a course group.

Groups then broke out and were asked to select a group leader and a group spokes person.

Information Technology staff and Linda DiGiorgi have been assigned to groups, they can not be the group leader or spokes person. Groups were asked to brainstorm what they would like to accomplish this year.

Groups:

Canvas: Allen Culp, Brian Runnalls, Carolyn Treleven, Emily Hunter, Dr. Hewins, Jaime Larson, Jennifer Burke, Linda DiGiorgi, Sally Wheeler
