## Five Core Values that our department lives by:

- **Equity** is a given in the athletics department not withstanding our commitment to Title IX but also selection of the very best opportunities for all our student athletes and staff.
- **Character** is an imperative trait that must be exhibited by each of our participants and staff members.
- **Excellence** is not only measured in wins and losses but also in the progress that our students make during their time in our program.
- **Joy** is watching our student athletes grow, mature and move on to the next phase of their lives with the tools we have given them through participation.
- **Team** is the foundation for our success. Working with multiple teams within our organization, we are able to effectively communicate the mission of the department and district.
