Tuition is non-refundable unless Chartwell cancels a summer program because of lack of enrollment (minimum enrollment for most programs is five students).  
If a summer program is cancelled, parents will be notified no later than June 8, 2019 and the tuition will be fully refunded.

# How to Register

To apply to any of the Chartwell Summer Programs, please complete the attached Registration Form or register online at [www.chartwell.org/summer](http://www.chartwell.org/summer).

If you are applying to the CORE Program, upon receipt of your Registration Form, we will contact you with information on the next steps.

If you are applying only to one of the afternoon programs, we will forward a Summer Enrollment Agreement. Return the signed Enrollment Agreement along with tuition payment.

Please note that admission to Summer Programs is limited and on a first-come, first-served basis.

SUMMER @ Chartwell

Extended School Year Programs

2019

# Great Summers start at Chartwell

Chartwell School's Summer CORE Program is academically focused and open to any student who would benefit from specialized instruction or would like to maintain progress achieved over the preceding academic year. It is also a unique opportunity for students not enrolled in the year-long program at Chartwell to benefit from a research-based, student-centered education.

Our goal is to guide children toward becoming healthy, curious, and confident learners. And, for students planning to attend Chartwell in the fall, the summer program is also a great way to become acquainted with our faculty, other students, and our “green” campus. This head start ensures a smooth and successful transition.

## Reading and Math Clinics

The Afternoon Reading Clinic provides the opportunity for students to benefit from individualized reading tutorials. This additional hour will provide children the opportunity to significantly increase their reading strategies. Due to popular demand, the Afternoon Math Clinic has been created to provide students with a small group mathematics tutorial. This additional hour will provide teachers the opportunity to address students’ specific skills gaps and for children to learn math strategies based on their individual learning profile. In both clinics, the other hour will be spent enjoying outdoor activities including mountain biking, hiking, or cooperative games.

**Note: Only students enrolled in the CORE program are eligible to enroll in the Reading Clinic.**

## 4 Week CORE Program: \$1,700

**Orientation:** Friday, June 14 | 8:30 am to noon

**CORE:** June 17 to July 12 | 8:30 am to 12:30 pm | Monday through Friday (except July 4)

**Literacy Skills:** students develop reading skills, reading comprehension skills, writing, organizational skills, and study skills.

**STEAM/Makers program:** students practice principles of science through technology, engineering, art, and mathematics while answering an essential question using a hands-on and project-based-learning model.

**\*Optional:** CORE participants may also elect to enroll for the two week Afternoon Enrichment Reading Clinic for \$500.
