

## **What is Schoology:**

The Troy School District uses Schoology (pronounced: Skool'uh-gee), an award winning Learning Management System that offers our students in grades 6-12 the opportunity to see assignments and grades, participate in group discussions, interact with teachers, track their progress, monitor due dates and so much more!

### **Parent Accounts:**

Parents can create a Schoology account to follow their student's coursework and progress.

### **With your parent account you can view your child's:**

- Activities
- Courses
- Calendars
- Grades
- Groups
- Update

### **What if I have more than one student in grades 6-12?**

If you have more than one student, you will receive separate codes for each student, but you will be able to link all of your children to your parent account.

### **What if my child moved from 5th to 6th grade and was using Schoology in elementary?**

Some elementary classrooms use a free version of Schoology that is a different system so you will need to create a new account and use the student access code we provide to you for your child.

### **What if my child's building is listed wrong in my parent account?**

Its ok - as you can still see all of your child's classes. We are working with Schoology on how to mass edit parent accounts when their child changes buildings to have it reflect the correct building.

### **How is this different than HAC?**

Schoology will update you on child's current class progress, provide a class calendar, and class materials for your child's classes. HAC will update you on your child's attendance and final grades.
