

Smith MS
Morning Student Drop Off Instructions

To ensure safety for all of our students/your children, and to help expedite the process, please follow the procedures/diagram below when dropping off in the morning:

DO

- Have your child(ren) prepare for the drop off in the red zone so they can exit the car quickly
- Pull up all the way to the front of the zone to allow for multiple cars to drop off together

DO NOT

- Pull even with the walk way so you can watch your child make it into the building (note: students *always* make it into the building)
- Drop off your child(ren) in the back row—you are placing your child(ren) in danger as they have to cross through traffic and setting a poor example of not following directions
