This Exit Exam will take approximately 4 hours. Students will be allowed to use a calculator on parts of the test. The calculator cannot have Wi-Fi capabilities (no phones or tablet apps). Calculators with graphing capabilities are prohibited during the graphing section of the test. The exam contains both multiple choice and constructed response items. Partial credit may be earned on some items. You must score 77% or more to pass the exam and be placed into Precalculus Honors for the following school year. Test scores are reported as pass/fail. The test is secure and will not be returned to the student or parent for review.

### **Content Covered in the Course:**

The Troy School District curriculum is based on the Michigan Mathematics Standards. The table below gives a brief description of the topics covered in the Algebra 2 textbook and their correlation to the tested standards. For a detailed explanation of the content expectations, see the complete list of Michigan Mathematics Standards for High School:
