

Lodi Unified School District

1:1 Home to School Connection

Take Home Opt-Out Form

Lodi Unified School District is excited to provide the opportunity for students to participate in the **1:1 (One to One) Home to School Connection** initiative. The initiative supports student access to digital resources both at school and home via a device checkout program. Sites will be checking out Chromebooks to students, just as textbooks are checked out or issued to students. The Chromebooks will remain in the students' possession for use at school and at home for the duration of their enrollment at that site.

A parent who chooses to not allow the device to go home with their student must sign and return a **Take Home Opt-Out Form** (below) to the school. This will NOT prevent the student from using their assigned device at school.

Take Home Opt-Out Form

I understand my student will be issued a Chromebook for use at school, however I would like to opt my student out of taking the chromebook home.

I understand that returning this form will NOT prevent my student from being issued a device for use at school.
