| | | FACSIMILE BID IS NOT ACCEPTABLE | | | | | |
| | Bids will not be accepted if submitted after the deadline specified (local time) in the advertisement to bid or in the information to bidders. The late submission of a bid makes the bid nonrepsonsive and is a material defect which shall not be waived by the Board of Education. Delays in the mail will not be considered. All Late bids in the mail will be returned to the bidder unopened. | | | | | | |
| | Proposal for the submission of alternatives by vendors will be accepted and reviewed. However, if any substitution or departure is not clearly noted and described, it will be understood that the bid intends to exactly meet the specifications. | | | | | | |
| The Board of Education shall be the sole judge as to whether the proposed goods are "equal" or "approved". Quotations must be mailed or delivered to the Purchasing Office, 1140 Rankin, Troy, MI 48083 no later than 3:00 p.m. on the date shown above. Michigan State Sales and Use Taxes and Federal Excise Taxes do not apply unless otherwise indicated. Exemption certificates will be furnished when necessary. This request imposes no obligations on the buyer. The Board of Education reserves the right to accept or reject any or all bids or to split awards by items or to accept bids, which will best serve the Board of Education. | | | | | | | |

TROY SCHOOL DISTRICT Web Filtering Solution Bid #9750

Overview

The Troy School District has a robust network infrastructure to support a 12,000 student public K-12 school district in Oakland County, MI, comprised of 20 instructional buildings (twelve elementary, four middle, two comprehensive high, one alternative/community high, and one International Baccalaureate high school) and four administrative and support facilities.

Base Bid Services:

Furnish, install, and configure Barracuda 810 or iBoss 14500 Web Content Solution to filter web traffic for a minimum of 12,000 users and 5000 devices. (No manufacturer substitutions will be considered) The awarded vendor will provide the necessary architectural and engineering design, support, warranty, installation and support.

Cost must include:

- Hardware capable of filtering at least one (1) Gbps of internet traffic for a minimum of 12,000 users and 5000 devices
- hardware with redundant components
- next business day advanced replacement for hardware replacements.
- Content database updates
- Software and hardware needed for reporting filter logs for at least 30 day retention
- Software licensing and hardware maintenance for 3 yrs
- On Site Installation and Configuration of the systems
- Administrative Training

Mandatory Alternates:

Alternate 1: Cost to furnish the Off Network Remote Filter Client (Windows XP, Windows 7, OSX, iOS, Android)
