# O Set A Goal

Set a specific, well defined goal to attain. It must be as specific as possible so that you are not distracted by unimportant details.

Step One is the "What" in the

Success Steps. Step Two is the

"How". The path to accomplishing your

goal is as easy as climbing up a flight of stairs. Each step is a "mini-goal" to reaching . your final goal.

Follow these five SUCCESS STEPS for academic and personal success!

#### <sup>©</sup> Prenare

To accomplish each step certain resources are needed. Determine what is needed, whether they are books, research materials, etc.

# Additional Study Tips

#### Start right—

This begins with basic information-no matter how simple. Begin by writing the day, month, and date at the top of your page (if blank). If your planner pages do not have preprinted subjects, write each subject's name in the order they come in the day.

#### Don't trust vour memorv-

For each subject line record the assignment for that day as soon as you know what it is. Write the due date in the proper area. Do this even if it is tomorrow! This will help you develop planning skills by forcing yourself to develop habits by repetition.

If you forget a day or two, don't get discouraged. New habits are developed just like bad ones. The more ਤੇ you repeat GOOD habits the sooner they will become routine.

#### Record success just like assignments-

You can get discouraged with all those assignments! Why not be encouraged with your progress! When you complete an assignment, test, etc., check off the

assignment when finished. Seeing all those check marks and completion dates written in will be encouraging. There is nothing more satisfying than seeing concrete evidence of your accomplishments!

Planning for Success!

BEFOREHAND to use your time more efficiently.

#### **O** Action

You know your goal. You've determined the steps and assembled your resources. Now GO and DO in an organized and efficient manner.

#### **©** Evaluate

T COM

You're done! Now what? Evaluate what happened. If your goal was to receive an "A" on the test, but earned a C+, step back and evaluate the plan you set up. By evaluating, you have a picture of the success of your planning and what you need to do to improve.

#### **Successful Study Tips**

- 1) Good work is a natural result of good study habits. 2) If you don't understand how to do your homework
- assignment, ask for help from your teacher. 3) Make sure to take home all books and materials to
- complete your assignments 4) Finish as much homework as you can in scheduled
- study periods. 5) Don't forget to complete assignments missed during absences.
- 6) Resist the temptation to procrastinate-return homework to teachers on time or even earlier.

#### **Homework Tips**

1) Have a scheduled time to do your homework. 2) Have a place that is quiet and free from distractions. 3) Have all supplies you need to complete your

- work-including pencils, paper, dictionaries, etc. 4) Check your work.
- 5) Be neat and complete.
- 6) Buddy-up with a fellow classmate to study. Use the time to study only, and not to socialize, since this will waste precious time

# English Study Skills
