STUDY SKILLS STRATEGIES (MOST POPULAR)

Grade Level: incoming 5th - 8th

Time: 12:30 - 2:00pm

Leaders: Houston Tutorial Association

Cost: \$315

The study skills strategies course is HTA's most popular courses. This signature course is designed to help students improve their study habits in the areas of organization, time management, goal setting, note taking, reading comprehension, test preparation and understanding learning styles. The course is a system for success not only for academics but also for life. Instructors keep students actively engaged and attempt to incorporate aspects of the school curriculum at the student's respective school whenever possible to make the course even more applicable. Today's course focuses on helping students be independent critical thinkers, highly resourceful and masters of advance preparation. Students leave with actionable takeaways to help adapt as they mature. And students say the course is fun and helpful and that they would refer it to their friends. *Course fee includes a student workbook and feedback and classes will be divided by grade level.*

THE DIGITAL DILEMMA: SOFTWARE INTEGRATION SKILLS FOR STUDENTS

Grade Level: incoming 7th - 8th

Time: 2:00 - 3:30pm

Leaders: Houston Tutorial Association

Cost: \$315

Students aren't afraid of trying any new software application, game or social media app. But ask students if they can easily format a school resume, manipulate data from their latest sports game into a spreadsheet, animate a presentation with a TEDx video and related photos from social media, organize a project for a club or create a digital file system and you will get a blank stare and shoulder shrug emoji. Yet these are some of the most basic skills students need to be able to leverage to succeed in high school, college, at an internship or future job. Ditch the digital dilemma and register for this interactive class that will teach your student important skills on the most common software applications while integrating study apps straight from their phone and other devices. Each student will leave with their own presentation covering the key takeaways and lessons learned from the class.
