

PE and Sports Grant

The government has been providing additional funding of £450 million commencing September 2013 to improve provision of physical education (PE) and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture, Media and Sport – has been allocated to primary school head teachers.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

Purpose of funding

Schools must spend the additional funding on improving their provision of PE and sport, but schools have been given the freedom to choose how they do this. A list of possible uses has been suggested.

Lynch Hill School has decided to use the money to:

- Enter into Partnership with Slough Schools Sports Network, to enable staff and pupils to have access to their Sport Program. This package includes staff training and allows children to enter a range of tiered competitions.
- Pay for additional professional development opportunities for Sports coaches and teachers, in PE and sport so that they feel confident to deliver high quality lessons and clubs
- To ensure that PE lessons are adequately resourced to enable good & better teaching (with resources that are differentiated)
- To support and engage the least active children in physical activities beyond PE lessons
- To enable reluctant pupils to readily participate in PE lessons and increase participation in physical activities at breaks and in clubs
- To use sport as a means of providing mentorship and for developing leadership
- To introduce new sports for pupils across the school to participate in

The impact of the use of the grant will be reviewed at the end of this year.

HOW THE IMPACT WILL BE MEASURED:-
