This month our Town Meeting will be focused on the importance of helping others. At the meeting 4th grade teacher, Katy Zweig, will launch our 2019 Pennies for Patients Campaign. The Leukemia & Lymphoma Society's (LLS) Student Series campaign is working with thousands of schools across the country to raise funds for blood cancer research. We are excited to be part of such a great cause and appreciate your participation. Additional information will be sent home. Thank you again for your continued support!

Dear Families,

You may have heard the term **STEAM** as part of your child's educational experience, but what is it really? Kind of like the subject area language arts, **STEAM** is a mix of interrelated subjects that are taught together in an integrated way. **STEAM** is an acronym for science, technology, engineering, art and math. Each month at Prospect Hill we invite all of the classes, K-5, to participate in a monthly **STEAM** Challenge. Children are asked to use the Design Cycle as they work together to build, create and problem solve.

This month's **STEAM** Makerspace challenge is to build a Leprechaun Trap! In order to create the "traps" we need your help! Kindly donate any of the following materials:

- Cardboard paper towel or toilet tissue tubes
- Empty Tissue boxes

We look forward to sharing some of the children's designs!

Warmly,

Ms. Carr
