

WE WISH YOU
PEACE.

At Greene Street Friends we established an all-school theme last year to bring our school community even closer together.

Each theme is a Quaker testimony.

Last year our theme was Simplicity, and this year it is Peace.

How do we teach peace?

We practice acts of kindness.

We help students identify their feelings through our Life Skills program.

Students in all grades learn to describe their emotions, assess a problem, and develop decision-making skills.

We provide time for reflection,
and spiritual renewal.

We teach teamwork, cooperation,
patience, resilience and optimism.

We celebrate the Inner Light in each person.

Through our curriculum and our daily practice, we teach that our diversity strengthens our community.

Each month we lift up a different Quaker term.

So far this year, students have learned the meanings of Light, Query, and for December, Stewardship – how our behavior shows our care for others, ourselves and our planet.

Join us in teaching peace.

Join us in an act of kindness.

Join us by making a year-end gift.

Join us in spreading peace
to a new generation of students.

PEACE IS THE WAY.
