

NOTABLE NOTES

March 14, 2019

Wesleyan Christian Academy — Elementary

Why Do We Have Wesleyan Christian Academy?

Because among the most meaningful ways to teach God's Truth in each discipline is through godly teachers who rightly understand reality and can wisely point out how He emanates from the visible and invisible elements of his creation.

March Character Trait

Humility: Absense of pride or self-assertion; modesty.
"For everyone who exalts himself will be humbled, and he who humbles himself will be exalted."

Luke 18:14b

Praising and Praying

- Praise the Lord for His faithfulness, mercy, and grace.
- Pray for the Lord's blessing on the many upcoming student activities including tomorrow's Missions Fair, our *Back to the Cross* musical, Arts Impact Day, etc.
- Pray for our Lord's continued grace and blessing as we have now entered the final quarter of this school year.

Arts Impact Day: Ms. Chaney

Our annual Arts Impact Day will be held on Friday, April 12th and we have many unique artists on the schedule to share their talents with our students. We could still use some volunteers to help make the day run smoothly and to serve as hosts to the artists. If you are interested in helping with this day, please contact Kathryn Chaney at kchaney@wcatrojans.org.

Missions Fair - Mrs. Moffitt

This year, our Missions Fair offering will go to support a project by some of our very own missionaries as students from Wesleyan travel to Guatemala this summer. We will be collecting the offering during both the opening and closing assemblies tomorrow. No amount is too small, but we would love to have every elementary student participate. Thank you for your support of this important day!

Elementary Math Olympians

Congratulations to the Elementary students that were selected to participate in the ACSI Math Olympics on Friday, March 8th.

3rd Grade-

Elle Gardner
Samantha McCandless
Brayden Dunbar

Lilly Garrison (4th)
Max Patterson
Adelle Miller

4th Grade

Bailey LaRue
Ethan Tarter
Lake Bristol

Miller Kraska (5th)
Matthew Spry (4th)
Antoinette Khoury

After School Program — Easter Break

The After School Program will be available 6:30 a.m.-6 p.m. during the week of April 22-26. Parents may sign up with their child's ASP teacher or with the coordinator Mrs. Amy McNeill, at 884-3333 ext. 235 or amcneill@wcatrojans.org.

Talent Show - Ms. Gray

We are planning to end our school year by showcasing the many talented students here at Wesleyan! The talent show will be on Friday, May 24th, from 9:30-11:00. Auditions will be held on Wednesday, May 8th for any interested kindergartner-4th grader. Students who plan to audition should begin preparing a piece no longer than 3 minutes. Please keep in mind not everyone will be able to participate because of time restraints. Look for a sign-up sheet to go home soon!

Elementary Musical: Back to the Cross

Ms. Gray

Please keep in mind all 2nd and 3rd graders will need to wear denim (no holes) along with their provided t-shirts for our musical on Tuesday, April 16th! T-shirts will remain at school until after the production. 4th grade please note that t-shirts will be worn over your costumes!

Notes from the Nurse

Illness – When Can a Child Return to School?

The top five causes for students missing school are:

1. Colds (Influenza during the flu season)
2. Stomach bug (gastroenteritis)
3. Ear infection
4. Pink eye (conjunctivitis)
5. Sore throat

As a parent, you can help prevent the spread of illness by not sending a sick child to school. Please do not send your child if they have a fever (more than 100 F), are vomiting or have diarrhea. Children should be fever-free, without medication, for 24 hours before returning school. Children with strep throat or pink eye must be on antibiotic therapy for 24 hours before returning.

- In general, children may return when they:
- Have no fever
- Can eat and drink normally
- Are rested and alert enough to pay attention in class
- Have completed any period of medically recommended isolation

A child's immunity improves with time. School-age children gradually become less prone to common illnesses and recover more quickly from the diseases they do catch.
