PARENTS AS PARTNERS PRESENTS:

“THE TEENAGE BRAIN – CRACKING THE KID CODE”

“Parenting can be one of the most difficult jobs in the world! It’s a job that offers no training and kids don’t come with an instruction manual. Cracking the kid code can be challenging. Steph Jensen helps decode common kid behaviors. This informative and humorous 2-hour session includes information on brain development that explains many of the challenging behaviors that can cause parents to lose their mind. Discuss strategies to prevent negative behaviors, provide consequences instead of nonsequences and help kids develop positive social skills.”
