

How to revise for Mathematics

What are the best websites to help with revision?

1. **The school FPP page**
Find copies of the paper, the markscheme and most importantly the worked solutions
2. **Mathswatch**
Great place to watch videos explaining all aspects of the maths curriculum
3. **MethodMaths**
Exam question practice, automarked so you know straightaway if it is right or wrong
4. **CorbetttMaths**
Videos, exam questions and answers – get more practice on the skills you need to work on
5. **Pinpoint**
Use this website at the direction of your class teacher
6. **MyMaths**
Wonderful site with brilliant interactive lessons and ‘homework’ activities to practice

*Can't find the site? Or log in? Any other problems - talk to your teacher or **come to Clinic***

Top 2³ - 1 Revision Tips

- Every minute counts – be prepared and work hard in your lessons
- Organise yourself – know what you have revised and what you still need to study
- Flash cards - make and **USE** them to memorise key facts, formulae.
- Redo your FPP – can you improve your score by 10 marks, 20 marks...?

- Clinic – come, even better if you bring a specific problem for Mr Freakes to help with

- Talk to your teacher – what do they want you to focus on?
- Timetable – make a plan of what you are going to revise and when

What support is available from teachers?

- **Clinic** – Tuesday lunchtime P.3.008, Thursday lunchtime P.3009
- **Study Room** – Thursday G.G. 13 Wednesday lunchtime
- **Interventions** – By invite, talk to Mr Freakes if you don't know when yours is or, would like to be included

Entry decisions – Foundation or Higher

You should know which tier you are entered for by now. If not, or if you feel it is not right for you, then discuss with your class teacher and Mr Freakes
