

Geography Revision Guide

Your Geography Teacher will have recently asked you to complete a check list, allowing you to highlight the areas that you feel you need to revise. Your teacher has also identified areas that need improving from the recent mock exam.

In the meeting you had before the end of term, you will have been given a letter, with this information on.

You should click the links of the areas you identified, read the revision notes and complete the revision activities that go with them.
