

THE INTERNATIONAL SCHOOL IN GENOA

SINCE 1966

Summer School 2019

June 25th – July 19th

Week 1: Exploration Week

Welcome to Summer School. This first week, we will be getting to know each other, playing games and learning/developing our English Language by using exploration skills. This is the beginning of a fun filled, enjoyable 4 weeks at ISG.

Week 2: Under the Sea

A week based around all things water based. With water games, learning about the ocean and the creatures who live in it, and the possibility of a water themed field trip to sign up for. Time to cool off from the heat and get wet!

Week 3: Mystery Week

Develop your detective skills and take part in activities surrounding different mysteries; solving clues. From Pirate maps, Treasure Hunts, Scavenger Hunts and Murder Mysteries (for the older students).

Week 4: Let's Marvel!

In our final week of summer school get ready to marvel at all we've achieved! We will spend the week playing games and creating decorations for our end of summer school party. Inspired by well-known heroes and our own personal heroes we will celebrate what we have done!

Field Trips for 2019:

Just like last year we will continue to organize a few field trips for students, which will link to the themes. You will be able to sign up and pay for these on a weekly basis.
