## ***From the Administration***

Dear Parents,

I want to relate an experience that happened to me as a fifth-grade teacher. This came from a mom who told me this after the assignment was over.

As I gave the assignment, the parent was not very happy about it and considered it to be a waste of time. She decided to complete the assignment along with her child. Her child had no idea she was doing this because she worked on it when he was at school. At the completion of the assignment, she realized the impact it had on her child as he was talking about it often and the powerful learning experience he had. She has also learned from it and realized that she was glad that I assign it. I was so grateful this good mom communicated this experience to me. It helped me to be a better teacher but also get a parent perspective on the assignment.

The teachers at the school put in many hours over and above the required time for your child and are very dedicated to the success of your child(ren). If you have concerns about an assignment, please contact them. It is best to seek out the source to get the correct answers instead of seeking other sources. Our teachers are here to help! They love your children. Please be willing to contact them. Education works best if parents, students and teachers work together.

Mike Page, Principal
