Maximum enrollment: 16	Minimum enrollment: 6
Cost:	\$ 175

Overview: Design, create, and install stained glass windows for the Collaboration Space.

-
- Course Goals:**
- * Learn glass cutting techniques
 - * Learn copper foiling and soldering techniques
 - * Learn how to design a stained glass window
 - * Learn how to properly install a stained glass window
 - * Learn a Brief History of stained glass
-

Reading Component: TBD

Writing Component: Reflection paper / Winter Term evaluation due at the end of the experience

Grade based on: Participation / Reflection paper-evaluation/ Attendance/ Craftsmanship

Description:

Students will be studying traditional / classical design of stained glass to get inspired to design windows to be permanently installed in the Collaboration Space. The majority of our class time will be spent designing and creating. We will be taking a field trip to Franklin Art Glass in Columbus.

This course is well suited to: Creative students / Craftsman

Cost: \$175 (materials)

Additional costs: Lunches

Other Information:

There may be an opportunity to earn service hours over the course of this Intercession experience.

Students will be using a grinder and soldering iron in this course, please do not select this course if you do not want your student using these power tools and other tools associated with making stained glass. Registration for this course will assume your consent for student use of tools.
