

Rankin County School District Memorandum
To: Parents
From: The School Nurse
Re: School Asthma Plan

After reviewing the Student Health Record you filled out at the beginning of the year, it has been determined by the school nurse that your child has a history of asthma. State law requires schools to have a SCHOOL ASTHMA PLAN on file for any student with a history of asthma.

The plan should be completed by your child's physician. The plan should detail individual daily treatment and management of their condition so that school personnel can recognize and handle worsening asthma or an emergency.

Please contact your child's physician and ask him/her to fill out a School Asthma Plan for your child and return the School Asthma Plan to your child's school.

If you would like to have your child's physician fax it to the school, please call the school for fax information. If you should have any questions, please call the office staff or school nurse.

Thank you,

RCSD SCHOOL NURSE
