Guide to Practice Activities & Released Testlets

DLM has prepared two practice activities and many released testlets to support educators and students preparing for testing.

- The **practice activities** are designed to familiarize users with the way testlets look in the KITE system. One is for teachers and the other is for students.
- The **released testlets** are similar to the real DLM testlets in content and format.

Practice activities and released testlets are accessed through KITE in the practice section. Using login information provided in this guide, both types of activities can be completed as many times as desired.

Some released testlets are available in PDF format on the
“Information for Parents” page on the DLM website.
KITE does not have to be installed on a computer to view these items.

If you have questions or technical problems with the practice activities or released testlets, please contact the Service Desk at 1-855-277-9751 (toll-free) or DLM-support@ku.edu. The Service Desk is open Monday through Friday from 8:00 a.m. to 7:00 p.m. Central Time.

Teacher Practice Activity

The **teacher practice activity** is a tutorial about testlets that are administered directly by the teacher. Teacher-administered testlets are used when:

- the content is difficult to assess on the computer or
- the student has presymbolic communication and cannot interact directly with the computer.

In this type of testlet, teachers read the instructions on the screens and follow them. They enter the student’s responses to activities or exchanges that occur outside the system.

Most of these testlets require teachers to gather materials to be used in the assessment. Directions for how to prepare for the testlet are provided as “educator directions” on the first screen(s).

Users may go forward and backward within a testlet as much as needed before submitting the answers.

Student Practice Activity

The **student practice activity** is a tutorial about testlets that are administered directly to the student. Student-administered testlets are used when:

- the content can be assessed directly by computer, **AND**
- the student can interact with the system directly and select his or her own answer, using assistive devices or other supports as needed.

Students may navigate using a mouse, tab and enter on a keyboard, or with switches. If the student **can** engage with the content but **cannot** advance the screens or input answers independently, the teacher may navigate the screens and record the student's answers on his or her behalf. More information about allowable practices is provided in the TEST ADMINISTRATION MANUAL.

There are several types of items in the student practice activity:

- multiple-choice items, in which the student selects one or more correct answers.
- sorting items, in which the student selects and moves objects from one place to another. Some items require the student to click the selection and the destination. Others require students to drag and drop an image. Students who use switches may need help navigating some of these screens.
- matching items, in which the student identifies how pairs of items are related to one another.

Students may go forward and backward within a testlet as much as needed before submitting answers.

Released Testlets

Released testlets are similar to real testlets. They are selected from a variety of Essential Elements and linkage levels across grades 3 through high school. New released testlets are added periodically.

Remember that testlets contain items that align to nodes at the designated linkage level.

The linkage levels are:

- Initial Precursor (IP)
- Distal Precursor (DP)
- Proximal Precursor (PP)
- Target (T)
- Successor (S)

Testlets administered by teachers are typically at the Initial Precursor linkage level. All writing testlets are also administered by teachers. Computer-delivered testlets are typically at the other four linkage levels.

Released testlets combine Essential Elements in the same way EEs are combined in year-end testlets.

In KITE, released testlets are labeled by their subject, grade, section & level codes, and linkage level.

In this image, the labels are:

Subject	Grade	Section & Level Codes	Linkage Level
ELA	5.	5.A	IP
Math	8.	NS.2.a	PP

To view the Essential Elements, linkage levels, and nodes used in assessments, look for the Educator Resource Page which is listed as a resource on your DLM state page.

The following sections describe the step-by-step procedure to access the practice activities and released testlets.

Student Accounts For Practice Activities And Released Testlets

Practice activities and released testlets are available through several practice student accounts.

Each practice student has been given certain Access (Personal Needs and Preferences (PNP)) Profile settings as described in the ACCESSIBILITY MANUAL. These features are summarized in the table below.

Each of the practice students listed below is enrolled in all available practice activities and released testlets.

Name	Password	PNP features turned on
demo.lisa	wave3	None*
demo.lisa.1	hat17	Contrast color: Green text on white background 
demo.lisa.2	vowel	Switch: scan speed = 4 seconds, auto scan = manual override, auto repeat scan frequency = infinity
demo.lisa.3	oven2	Switch: scan speed = 5 seconds, initial delay = 5 seconds, auto repeat scan frequency = 2
demo.lisa.4	heal2	2x magnification
		4x magnification and reverse contrast
demo.lisa.5	oven6	
demo.lisa.6	raft5	5x magnification
demo.lisa.7	acme3	Color overlay (green)

*No special settings are required for two-switch users. Use **Tab** to navigate, and **Enter** to select.

Accessing the Practice Activities and Released Testlets

The KITE client must be installed before you can access practice activities or released testlets. Download information is available on the KITE & Educator Portal page of the Dynamic Learning Maps website <http://dynamiclearningmaps.org/content/kite>.

To access the DLM practice activities and released testlets, follow these steps:

1. Click the **KITE Client** icon on the testing device.

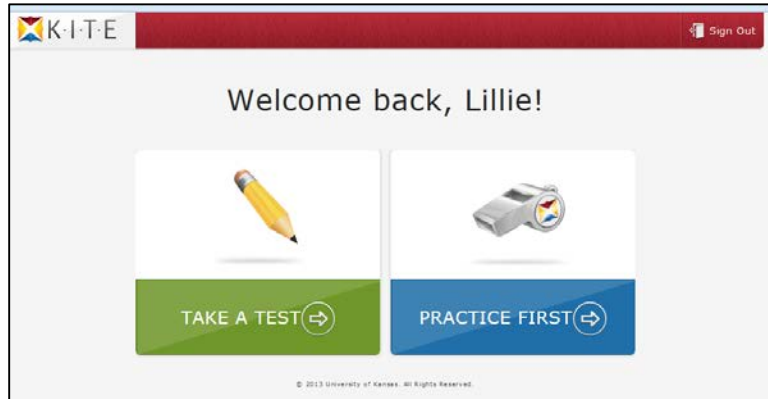

2. Click **Other Assessments**.

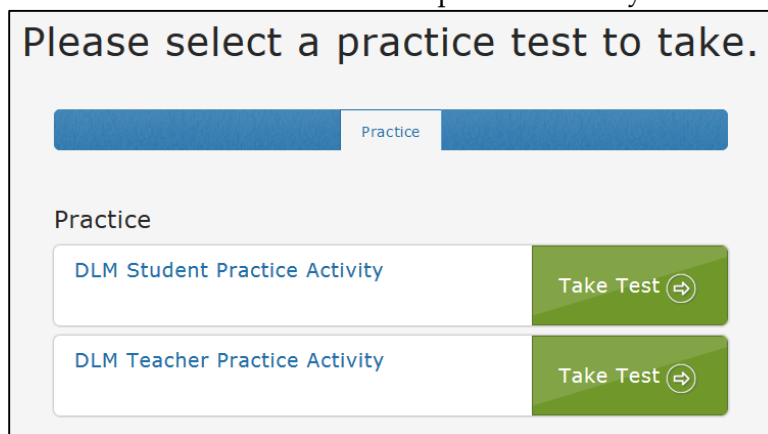

3. Enter the practice student's **Username** and **Password**; click **Sign In**.

A screenshot of the KITE login screen. At the top, there is a logo consisting of a stylized kite with yellow, red, and blue sections, followed by the text "K·I·T·E". Below the logo, the text "Welcome Back!" is displayed. There are two input fields: the first is labeled "USERNAME" and contains the text "demo.sue90"; the second is labeled "PASSWORD" and contains five black dots. At the bottom, there is a blue button with the text "SIGN IN" and a white arrow pointing to the right.

4. Click **Practice First**.

5. Click **Take a Test** for the desired practice activity or released testlet.

6. Click **Begin**.
7. Continue with the testlet, navigating using the **BACK** and **NEXT** buttons. To stop in the middle of a testlet, use the **EXIT DOES NOT SAVE** button.

8. To try a different student profile or a different released testlet or practice activity, either complete a test or use the **EXIT DOES NOT SAVE** button to return to the welcome screen. Then **Sign Out** and sign back in with a different username and password.
