Parent Request for Use of Parent Designated Adult

Washington State requires public school districts to address the medical needs of students with diabetes. Pursuant to Chapter 350, Laws of 2002, which added sections to RCW 28A.210, the school district uses this document to allow the parent to designate a parent-designated adult who can provide care, if needed, for a student with diabetes.

For purposes of this form, "parent-designated adult" means: a volunteer, who may be a school district employee, who receives additional training from a health care professional or expert in diabetic care selected by the parents, and who provides care, if needed, for the child consistent with the individual health plan. The "additional training" is for care that would otherwise be performed by a health professional licensed under RCW 18.79.

By law, a school district, school district employee, agent, or a parent-designated adult, acting in good faith and in substantial compliance with the student's individual health plan and the instructions of the student's licensed health care professional, that provides assistance or services shall not be liable in any criminal action or for civil damages in his or her individual or marital or governmental or corporate or other capacities as a result of the services provided to my child with diabetes.
