

Charter
Middle School Design Committee
July 2017

Purpose

To design a facility that best serves the middle school students of MISD by meeting their educational programming needs in the most fiscally responsible manner.

Responsibilities of the Committee

To work as an Ad hoc committee in collaboration with Huckabee Architecture Firm in order to direct the building process through all phases of design. The work session topics for the new middle school will include program feasibility, conceptual design, schematic design and development of finish options including graphics. The same design process will be implemented in work sessions for the STEM Academy existing within the new middle school design.
