Sachse Mustangs Families,

The safety and security of the students in our building are both the most important and serious jobs that our faculty and staff undertake. As an assurance to your student, your family and the community, Sachse High School is implementing an update student ID procedure beginning Monday, April 15, 2019.

First period teachers will now be charged with verifying all student IDs. The student must have their ID on and visible at all times. This means that a student cannot have them in a pocket, purse, or wallet.

If a student does not have a visible ID, the first period teacher is to issue a name tag. This name tag is to remain on the student for remainder of the day until they purchase a new ID.

Teachers will record the number of times that a name tag has been issued to the student. On the third issue of a name tag to the same student, the student will receive an office referral.

Sachse High School's mission is to continue to strengthen a foundation that will foster responsible citizenship and lifelong learning. This new policy will help enhance student safety and security and support that mission.
