1. Has your child attended school before? What was the nature (length of day, days per week, developmental/academic emphasis, number of children in class) of the program?

2. How does your child adapt to new situations? Please indicate on the scale below with an X. If you have other comments or suggestions on how to facilitate an easy transition, please outline them below.

3. Describe your child's language development, communication with peers, and communication with adults. As the closest observer of your child, is there anything specific about his/her communication style that you would like us to be aware of?
